1000 KVA

The technical drawing illustrates a 1000 KVA power cabinet from three perspectives: front, side, and rear. The front view shows a large cabinet with a width of 1600mm and a height of 1500mm. It features a main door on the right with a handle and lock, and a smaller door on the left. Inside, there are two rows of circuit breakers, each labeled with its rating (e.g., 400A, 250A). A red warning symbol is visible on the right door. The side view shows the depth of the cabinet as 450mm. The rear view shows the back of the cabinet with various connection points and a red warning symbol.
